

Introduction

Our firm, Strategic Capital Advisers, Inc., is an investment adviser registered with the Securities and Exchange Commission. We feel that it is important for you to understand how advisory and brokerage services and fees differ in order to determine which type of account is right for you. There are free and simple tools available to research firms and financial professionals at www.investor.gov/CRS, which also provides educational materials about investment advisers, broker-dealers, and investing.

What investment services and advice can you provide me?

We are a registered investment adviser that offers investment advisory services to clients. If you open an advisory account with our firm, we'll meet with you to understand your current financial situation, existing resources, objectives, and risk tolerance. Based on what we learn, we'll recommend a portfolio of investments that is monitored at least monthly, and if necessary, rebalanced to meet your changing needs and goals. We'll offer you advice on a regular basis and contact you at least annually to discuss your portfolio.

We manage accounts on a discretionary basis. After you sign an agreement with our firm, we're allowed to buy and sell investments in your account without asking you in advance. Any limitations will be described in the signed advisory agreement. We will have discretion until the advisory agreement is terminated by you or our firm.

We do not restrict our advice to limited types of products or investments.

Our firm does not impose requirements for opening and maintaining accounts or otherwise engaging us.

Additional information about our advisory services is in Item 4 of our Firm Brochure, which is available online at <https://adviserinfo.sec.gov/firm/brochure/108872>.

Questions to Ask Us:

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education and other qualifications? What do those qualifications mean?

What fees will I pay?

You will be billed an ongoing annual fee assessed quarterly based on the value of the assets in your account. Our annual fees range from 1.50% on the first \$1 million of assets under management to 0.01% on assets over \$1.0 billion.

Our fees vary and are negotiable. The amount you pay will depend, for example, on the services you receive and the amount of assets in your account. The more assets you have in your advisory account, the more you will pay us. We therefore have an incentive to increase the assets in your advisory account in order to increase our compensation.

Our fees will be automatically deducted from your advisory account, which will reduce the value of your advisory account. In rare cases, we will agree to send you invoices rather than automatically deduct our fees from your advisory account.

The custodian that holds your assets may charge you a transaction fee when we buy or sell an investment for you. The custodian's transaction fees are in addition to our firm's fees. You may also pay charges imposed by the custodian holding your accounts for certain investments and maintaining your account. Some investments, such as mutual funds, index funds, and exchange traded funds, charge additional fees that will reduce the value of your investments over time.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Additional information about our fees is in Item 5 of our Firm Brochure, which is available online at <https://adviserinfo.sec.gov/firm/brochure/108872>.

Questions to Ask Us:

- Help me understand how these fees and costs may affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money may create some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice, we provide you. Here are some examples to help you understand what this means:

We recommend that you use Charles Schwab & Co., Inc. (“Schwab”) as a custodian to hold your assets. This presents a potential conflict of interest because our recommendation may be based on the services that we receive from Schwab.

Additional information about our conflicts of interest is in our Firm Brochure, which is available online at <https://adviserinfo.sec.gov/firm/brochure/108872>.

Questions to Ask Us:

- How might your conflicts of interest affect me, and how will you address them?

How do your financial professionals make money?

Our financial professionals are compensated with a salary. Our firm earns revenue based on our financial professional’s advisory services or recommendations, the amount of client assets we service, and the time and complexity required to meet a client’s needs.

Do you or your financial professionals have legal or disciplinary history?

No, our firm and financial professionals do not have any legal and disciplinary history to disclose. Visit Investor.gov/CRS for a free and simple search tool to research our firm and our financial professionals.
