FORM CRS (Client Relationship Summary)

Guidance Point Advisors, LLC is registered with the Securities and Exchange Commission as an investment adviser and, as such, we provide advisory services rather than brokerage services. Brokerage and investment advisory services and fees differ and it is important for you, our client, to understand the differences. Additionally, free and simple tools are available to research firms and financial professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing. This Client Relationship Summary describes the services and fees we offer to "retail" investors, which are natural persons who seek or receive services primarily for personal, family, or household purposes.

What investment services and advice can you provide me?

We primarily offer the following investment advisory services to retail investors: **Portfolio Management Services** and **Financial and Retirement Planning Services**. We may also offer the selection of third-party managers.

<u>Account Monitoring</u>: If you open an investment account with our firm, as part of our standard service we will monitor your investments on an ongoing basis and will review your account with you at least annually.

<u>Investment Authority</u>: We manage investment accounts on a discretionary basis whereby we will decide which investments to buy or sell for your account. We may also have discretion to select, retain or replace third-party managers to manage your accounts. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased or sold for your account) by providing our firm with your restrictions and guidelines in writing.

Investment Offerings: We primarily use exchange-traded funds (ETFs) to implement client portfolios. However, we provide advice on various types of investments and do not limit our advice to a specific type of investment or product.

Account Minimums and Requirements: In general, we require a \$250,000 minimum account size to open and maintain an advisory account, which may be waived at our discretion.

Key Questions to Ask Your Financial Professional

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

- Our revenue is derived from asset-based fees, which could give us the incentive to want to manage a larger account balance on your behalf, as our fee is based on the balance of your account; and,
- We may have revenue sharing arrangements with certain third-party managers that may assist with managing your account.
