

1. Kovalcik & Geraghty Wealth Partners LLP Relationship Summary, September 1, 2022

Kovalcik & Geraghty Wealth Partners LLP (KGWP) is an investment adviser registered with the Securities and Exchange Commission. Brokerage and investment advisory services and fees differ. It is important for the retail investor to understand the differences. Free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing.

2. What investment services and advice can you provide me?

KGWP provides investment advisory services to retail investors. Our portfolio management service consists of creating and managing an investment portfolio based on your goals and tolerance for risk. After initial consultations with you to determine those goals and tolerances, we buy securities for you through a broker/dealer who typically also holds your assets. Most of our clients use Raymond James Financial Services, Inc. for these purposes. We do not hold any client assets and we are not a broker/dealer. We also provide financial planning services to a number of clients. Our only revenue comes from portfolio management and financial planning fees. For the vast majority of our clients, we have discretionary authority to place trades directly with Raymond James (or another broker/dealer) on your behalf, but for a small number of accounts we do not have this authority. In these instances, the investor makes the ultimate purchase and sale decisions. We monitor your portfolio investments on a continuing basis. We continue to communicate with you to ensure we continue to understand your goals and risk tolerance as they evolve over time. We do not advise investors on limited offerings. There is a minimum account size of \$1,000,000 and a minimum annual fee of \$6,250. All fee arrangements, including minimums, are negotiable (see below).

For additional information about KGWP, please see our most recent Form ADV, a disclosure document filed with the SEC that contains greater detail about KGWP. Our ADV is available directly from KGWP or from the SEC at [investor.gov](https://www.investor.gov) or [adviserinfo.sec.gov](https://www.adviserinfo.sec.gov).

Conversation starters – ask your financial professional: Given my financial situation, should I choose an investment advisory service? Why or why not?

How will you choose investments to recommend to me?

What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

3. What fees will I pay?

Our portfolio management fees are based on the amount of assets we manage for you. The fees are computed and billed in advance near the beginning of each quarter. Our standard annual fee schedule is 1.25% on the first \$1,000,000, 0.5% on the next \$4,000,000, and an individually negotiated amount on assets over \$5,000,000. There is a minimum quarterly fee of \$1,562.50. Fees for the initial quarter are pro-rated. If you cease to be a client mid-quarter, any unearned fees are refunded. For financial planning services, our fees are either a flat fee (typically between \$1,500 and \$7,500) or at an hourly rate of \$275/hour. All fees are negotiable. As a portfolio management client, you may also pay other fees directly to Raymond James or another broker/dealer (e.g. wire transfer fees). For most clients we invest a portion of their portfolio in ETFs or mutual funds, which have embedded in them a separate management fee. Because our fees are primarily asset based, we may have an incentive to encourage you to increase assets in your account.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. More detailed information about our fees is available in our Form ADV, specifically the Fees and

Compensation section of ADV part 2A on pages 1-3. The ADV is available either directly from KGWP or from the SEC at investor.gov or adviserinfo.sec.gov.

Conversation starter - Help me understand how these fees and costs might affect my investments. If I give you \$1,000,000 to invest, how much will go to fees and costs, and how much will be invested for me?

4. What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means. We benefit from greater assets under our management, but you do not benefit from this except in limited circumstances. If our assets under management go up because a new client has hired us, you do not benefit from that increase. If we suggest you hire us to manage additional assets, we believe that will benefit you, but it will also mean greater fees for us. If our assets under management go up because your portfolio has increased in value, your interest and ours are aligned. We have a single source of revenue (fees from clients like you) and thus we do not have conflicts based on secondary sources of revenue. For example, we do not benefit based on what securities we buy or sell for you, how often you trade, where your assets are kept, who does your taxes, etc.. We urge you to consider the conflicts you will potentially encounter with any adviser you might hire and we are happy to discuss our own potential conflicts with you.

5. How do your financial professionals make money?

KGWP has 5 employees, 2 of which manage client portfolios. Our non-principal employees are paid salaries and bonuses, which are impacted by a variety of factors. Our principals, Matthew G. Kovalcik and Stephen P. Geraghty are solely compensated through the profitability of KGWP. If your account rises in value that positively affects the profitability of KGWP, but other factors that do not benefit you can also positively affect the profitability of KGWP. They have an incentive to focus on those things in addition to focusing on your account.

6. Do your professionals have legal or disciplinary history?

KGWP and Stephen P. Geraghty have none. Matthew G. Kovalcik has 3 client complaints on his U4 filing from his time at a broker/dealer. One of these complaints was withdrawn a week after filing, in 2000, and one was denied, in 2007. The third, dating from 2002, was settled. Details can be found at investor.gov. We are happy to discuss these in detail. We do take the utmost care to ensure that errors as it relates to our clients are rare. The SEC's website investor.gov/CRS provides a free tool to research both KGWP and our professionals.

Conversation starter – As a financial professional, do you have any disciplinary history? For what type of conduct?

7. Additional information

Additional information about our relationship, including this form CRS and the rest of our ADV and any updates to those SEC disclosure forms, are available directly from KGWP or from the SEC at investor.gov/CRS or adviserinfo.sec.gov. Steve Geraghty is reachable at 614.222.4888 or sgeraghty@kgwp.com and Matt Kovalcik is reachable at 843.757.2083 or mkovalcik@kgwp.com.

Conversation starter – Who is my primary contact person? Is he or she a representative of an investment adviser or a broker dealer? Who can I talk to if I have concerns about how this person is treating me?
