

Client Relationship Summary (CRS - Form ADV Part 3)

Coburn Barrett, LLC (“Coburn Barrett”) is an investment adviser registered with the United States Securities and Exchange Commission (“SEC”) offering advisory accounts and services. As an investment advisor, our services and fees differ from those provided by a broker-dealer, and it is important that you understand the differences. This document gives you a summary of the types of services and fees we offer. Please visit investor.gov/CRS for free, simple tools to research firms and financial professionals and for educational materials about broker-dealers, investment advisers, and investing.

<p>What investment services and advice can you provide me?</p>	<p>Coburn Barrett provides investment advisory services to high net worth individuals and pooled investment vehicles. The principle investment advisory service we provide to high net worth individuals is portfolio management through separately managed accounts. Our firm has discretionary management without any material limitations which means we are authorized to purchase or sell investments without specific client consent. We do <i>not</i> limit the types of investments that we purchase for clients. The terms, restrictions, and other provisions applicable to separately managed accounts are individually negotiated with each client and are described in the client’s investment management agreement. Our relationships generally involve significant account minimums – our minimum account size is currently \$10,000,000. We typically monitor client accounts on a daily basis. More information can be found about us and our services on our Form ADV Part 2A (“Brochure”), specifically Items 4 & 7.</p>	<p>Questions to ask us:</p> <p>Given my financial situation, should I choose an investment advisory service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?</p>
<p>What fees will I pay?</p>	<p>Our fees vary depending on the services you receive. For our advisory services, we charge a management fee based on a percentage of assets under management. Because our fees are based on the amount of assets in your account, we have an incentive to increase those assets in order to increase our fees. Management fees are calculated and billed quarterly in advance based upon the market value of managed assets. You pay our management fees even if you do not have any transactions in a given period. Generally, the management fee paid to us does not vary based on the type of investments selected.</p> <p>Please also see Items 4 through 8 of our Brochure for further information about our fees.</p> <p>In addition to our fees described above, there are other fees and costs related to our advisory services and investments that you should expect to pay. You will incur custodian and brokerage (transaction) fees. Brokerage fees will incur when we buy or sell an investment for your account. Investments in certain types of securities may incur additional fees (e.g., product-level fees). You will also bear the cost of any borrowing charges on securities sold short, interest and other costs on margin accounts or other financings or re-financings, and bank service fees. You will pay fees and costs</p>	<p>Questions to ask us:</p> <p>Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?</p>

	<p>whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Please also see our Brochure for additional details, specifically Items 5 and 12.</p>	
<p>What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?</p>	<p>We are not affiliated with any banks, broker-dealers, or other financial institutions; therefore, we are able to serve our clients free from undue influence and with minimal conflicts of interest. <i>When we act as your investment adviser,</i> we have to act in your best interest and not put our interest ahead of yours.</p> <p>At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here is an example to help you understand what this means:</p> <p style="padding-left: 40px;">Because our fees are based on the amount of assets in your account, we have an incentive to increase those assets in your account in order to increase our fees.</p>	<p>Questions to ask us:</p> <p>How might your conflicts of interest affect me, and how will you address them?</p>
<p>How do your financial professionals make money?</p>	<p>Primarily, we and our financial professionals receive cash compensation from the advisory services we provide to you through the asset-based investment management fees we receive from you. Our overall compensation may vary primarily based on the revenue of our firm. Please also see Items 5 and 10 of our Brochure for additional details.</p>
