

ONE DEGREE ADVISORS, INC.
FORM CRS RELATIONSHIP SUMMARY JUNE 2020

INTRODUCTION

One Degree Advisors, Inc. is registered with the Securities and Exchange Commission (SEC).

Brokerage and investment advisory services and fees differ and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at www.investor.gov/CRS, which also provides educational material about broker-dealers, investment advisers, and investing.

What investment services and advice can you provide me?

We provide investment management services (which typically includes ongoing financial planning) that we offer on a discretionary or non-discretionary basis according to the authority you provide in an investment advisory agreement with us. When you grant us discretionary authority you provide us with authority to determine the investments to buy and sell in your account on an ongoing basis. You may impose reasonable restrictions on our discretionary authority, which must be provided to us in writing and accepted by us. If you do not provide us with discretion, then we will make recommendations and you will have the final decision regarding whether we purchase or sell investments on your behalf. As part of investment management services, we will continuously monitor your investments and provide advice. Our services also include the recommendation or selection of other investment advisers.

Our investment management services include acting as a sponsor to a wrap fee program. As the sponsor of the program we organize and manage the program, including determining the portfolio managers that will be available with the program. As the portfolio manager for (a) wrap fee program(s) we provide the portfolio management services described.

We provide financial planning services, in which we provide advice and recommendations regarding your personal investment goals and objectives, personal balance sheet, tax planning, risk management, retirement, education, cash flow and investment planning. When providing only financial planning services, we do not monitor your investments and you make the ultimate decision regarding the purchase and sale of investments.

Additional information about our services can be found in ADV Part 2A, Items 4 and 7.

Ask your financial professional...

- *Given my financial situation, should I choose an investment advisor service? Why or why not?*
- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

What fees will I pay?

We charge a percentage of assets under management for investment management services. These fees are assessed on a quarterly basis, in advance. You should be aware that the more assets there are in your account, the more you will pay in fees.

If you invest in one of our wrap fee programs, asset-based fees associated with the wrap fee program will include most transaction costs and fees to a broker-dealer or bank that has custody of these assets, and therefore are higher than a typical asset-based advisory fee.

For financial planning we charge hourly and fixed fees. We charge a retainer and invoice you for the remaining fee after we complete our engagement. When you pay us only an hourly or fixed fee, it will not include fees for implementing recommendations made. This means we have an incentive to recommend additional advisory services to you for which additional fees are charged.

Examples of the most common fees and costs applicable to retail investors include custodian fees, account maintenance fees, fees related to mutual funds and variable annuities, and other transactional fees and product-level fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Please refer to firm's ADV Part 2, Item 5 for additional information regarding our fees.

Ask your financial professional: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when providing recommendations as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here is an example to help you understand what this means.

If you ask One Degree Advisors, Inc. whether or not you should repay a loan using money invested with us, it presents a conflict of interest, as fiduciaries, we must disclose to you and mitigate through policies and procedures.

In addition, when a financial professional that is also a licensed insurance agent recommends an insurance product, they receive a commission from the insurance company.

Ask your financial professional: How might your conflicts of interest affect me, and how will you address them?

How do your financial professionals make money?

Our financial professionals receive a salary and a discretionary bonus based on their individual performance and the success of the firm.

Do you or your financial professionals have legal or disciplinary history?

Yes. Please visit Investor.gov/CRS for a free and simple search tool to research us and your financial professionals.

Ask your financial professional: As a financial professional, do you have any disciplinary history? For what type of conduct?

Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?
