Form CRS - Client Relationship Summary

Stylus Capital LLC is registered with the Securities and Exchange Commission as an investment adviser. Brokerage and investment advisory services and fees differ, and it is important for you to understand the differences. Free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/crs), which also provides educational materials about broker-dealers, investment advisers, and investing.

What investment services and advice can you provide me?

We offer discretionary portfolio management services to individuals, high net worth individuals, and select business entities. When you grant us discretionary authority, we are able to buy and sell investments in your account without asking you in advance. We primarily invest in exchange-listed equities, options, futures, and other financial instruments across global markets using systematic, quantitative strategies.

We monitor client accounts on an ongoing basis as part of our standard advisory services. We do not impose a minimum account size requirement, though we reserve the right to do so.

Conversation Starter: Given my financial situation, should I choose an investment advisory service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

What fees will I pay?

We charge an asset-based management fee calculated as a percentage of the assets we manage for you. You pay our fee monthly in arrears, based on the net asset value of your account at the end of each month. Our fee is typically deducted directly from your brokerage account. Because our fee is based on the value of your account, we benefit when the value of your account increases, which means we have an incentive to encourage you to increase the assets in your account.

In addition to our management fee, you will incur brokerage commissions, transaction fees, and other costs charged by your custodian (Interactive Brokers LLC). These costs are separate from and in addition to our management fee. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Conversation Starter: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means:

Burak Yenigun, the founder of Stylus Capital LLC, is also a principal of Stylus Capital Partners LLC, a separate legal entity that serves as the general partner of a small private cryptocurrency fund. Stylus Capital Partners LLC has no shared employees or resources with Stylus Capital LLC other than Mr. Yenigun's involvement in both entities. This relationship could present a conflict of interest as it may compete for Mr. Yenigun's time and attention.

Conversation Starter: How might your conflicts of interest affect me, and how will you address them?

Do you or your financial professionals have legal or disciplinary history?

No. Visit [Investor.gov/CRS](https://www.investor.gov/crs) to research our firm and our financial professionals.

Conversation Starter: As a financial professional, do you have any disciplinary history? For what type of conduct?
