

Iowa Wealth Management, LLC

Form CRS Customer Relationship Summary, March 21, 2022

Iowa Wealth Management, LLC is registered with the Securities and Exchange Commission (SEC) as an Investment Adviser. Brokerage and investment advisory services and fees differ and it is important for you as a retail investor to understand the differences. Free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing.

What investment services and advice can you provide me?

We offer investment management services to retail investors, including financial planning and consulting services. We generally manage your portfolio by allocating assets among various types of securities including exchange-listed securities, mutual fund shares, securities traded over-the-counter, foreign issues, certificates of deposit, securities option contracts, REITs (real estate investment trusts), oil and gas interests, insurance products, and any type of investment held in a client's portfolio at the inception of the advisory relationship. Asset management services are provided on a discretionary or nondiscretionary basis. Discretionary means the trading activity with your account is entered by us without receiving prior authorization for each trade. For nondiscretionary accounts, you make the ultimate decision regarding the purchase and/or sale of investments. You may impose restrictions on the securities or types of securities in which you would like us to invest. We monitor your account at least quarterly. We will offer you advice on a regular basis and contact you at least annually to discuss your portfolio. We do not have a minimum account size or minimum fee amount. We do not restrict our advice to limited types of products or investments.

We provide Financial Planning services which include, but are not limited to, preparing a plan that includes: cash flow management, education planning, retirement planning, investment planning, risk management and insurance planning, tax planning, estate planning and business succession planning (for business owners).

We offer consulting related services that may include, but are not limited to, portfolio reviews, investment analysis, and/or asset allocation modeling. We may also perform the contracted services for an agreed upon fixed fee or retainer basis, which is based on an estimate of the number of hours required to complete the contracted services.

Conversation Starters. Questions to Ask Us:

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

What fees will I pay?

We provide asset management services for an annual fee, which is negotiable and will not exceed 1.45% depending upon the market value of the assets under management. The more assets you have in your advisory account, the more you will pay us. Therefore, we have an incentive to increase the assets in your advisory account in order to increase our fees. Our fees are prorated and charged monthly, in advance, and automatically deducted from your account, which will reduce the value of your account. Current client relationships may exist where the fees are higher or lower than the above fee schedule. We also offer fixed income services at a reduced rate based on the complexity of the account.

For our Financial Planning services, we charge a flat hourly rate of \$270 per hour for CFP Professionals and \$125 per hour for Administrative Professionals. Fees associated with consulting related services are based on our hourly rate of \$225.

The broker/dealer that holds your assets may charge you a transaction fee when we buy or sell an investment for you. These transaction fees are in addition to our fees. You may also pay charges imposed by the broker-dealer for custodial fees, account maintenance fees, fees related to mutual funds and variable annuities, and other product-level fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

- Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

We recommend that you establish an account with a third-party independent custodian. We receive research products and services from the custodian to assist us in the performance of our investment decision-making responsibilities. These arrangements present a conflict of interest in that we have a financial incentive to recommend that you maintain your account with the custodian for the availability of these products and services and not solely on the nature, cost, or quality of custody and brokerage services provided by the custodian.

- How might your conflicts of interest affect me, and how will you address them?
