### CONVERSATION STARTERS. Ask your financial professional:

- Given my financial situation, should I choose an investment advisory service? Should I choose a brokerage service? Should I choose both types of services? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

### 3. FEES, COSTS, CONFLICTS, AND STANDARD OF CONDUCT

#### 3A. WHAT FEES WILL I PAY?

- |   |  |
|---|--|
| <ul style="list-style-type: none"><li>• Transaction-based fees. You will pay us a fee each time you buy or sell an investment. This fee, commonly referred to as a commission, is based on the specific transaction and not the value of your account.<br/>With stocks or exchange-traded funds, this fee is usually a separate commission. With fixed income investments, such as bonds, this fee might be part of the price you pay or receive for the investment (called a <b>“mark-up”</b> or <b>“mark-down”</b>). With mutual funds, this fee (typically called a <b>“load”</b>) is set by the mutual fund company and reduces the initial value of your investment.</li><li>• Mutual funds may charge annual management fees and 12b-1 fees, which vary depending on the fund. These fees will reduce the value of your investment over time. Also, with certain investments such as variable annuities, surrender charges and annual operating expense may apply.</li><li>• It is important that you understand how fees are assessed in a brokerage account. The amount you pay will depend on the type of investment or security the transaction involves.</li><li>• As a retail customer, you must keep in mind that there is a fee or charge for each transaction, whether you are buying or selling. Therefore, there could be an incentive for us to encourage you to engage in transactions.</li><li>• From a cost perspective, you may prefer a transaction-based fee if you do not trade often or if you plan to buy and hold investments for longer periods of time.</li><li>• Additional fees, such as custodial fees, transfer fees, account maintenance or closing fees and account inactivity fees will be charged by our clearing firm. Please consult your financial professional for further information.</li></ul> | <ul style="list-style-type: none"><li>• Asset-based fees. You may pay an on-going fee at the end of each quarter based on the value of the investments in your advisory account, excluding cash. The amount paid to our firm and your financial professional generally does not vary based on the type of investments we select on your behalf. An asset-based fee reduces the value of your account and will be deducted from your account.</li><li>• Some investments (such as mutual funds and variable annuities) impose additional fees that will reduce the value of your investment over time. Also, with certain investments such as variable annuities, you may have to pay fees such as <b>“surrender charges”</b> to sell the investment.</li><li>• There may be transaction-based fees in our advisory accounts. We may act as principal in any advisory account or earn a commission on transactions within these accounts.</li><li>• There may be an annual account maintenance fee charged by the custodian of your account.</li><li>• Keep in mind fees are based on the value of assets in the account, excluding cash. We therefore have an incentive to increase the assets in your account in order to increase our fees. Fees will be deducted from your account on a quarterly basis, regardless of activity.</li><li>• Fees in an advisory account could exceed fees in a brokerage account if that brokerage account had little or no trading activity, but over time you may prefer an advisory account if you want continuing advice, want someone to make investment decisions for you or wish to have ongoing monitoring of your account.</li><li>• Our advisory account fees are listed in our ADV Part 2-A Firm Disclosure, available on our website: <a href="https://www.cisinvest.com">https://www.cisinvest.com</a> under the drop -down <b>“Firm Disclosures”</b> or ask your financial professional.</li></ul> |

**You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.**

**CONVERSATION STARTERS. Ask your financial professional:**

- Help me understand how these fees and costs might affect my investments. If I gave you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?
- How much would I expect to pay per year for an advisory account? How much for a typical brokerage account? What would make these fees more or less? What services will I receive for those fees?
- What additional costs should I expect in connection with my account?
