- *Help me understand how these fees and costs might affect my investments.*
- *If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

What fees will I pay?

You will pay a fee for the advisory services we provide. Our fee is an ongoing fee based on a percentage of your account’s assets. Any fees paid and the frequency charged will be agreed upon by you when you sign Laurelhurst Asset Management, LLC’s investment advisory agreement.

If you pay an asset-based fee, the more assets there are in your account, the more you will pay in fees. This gives us an incentive to encourage you to increase the assets in your account.

You may pay other fees, depending on your account type. These fees include custodian fees, account maintenance fees, transactional fees, and other ancillary fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

<i>What are your legal obligations to me when acting as my investment advisor? How else does your firm make money and what conflicts of interest do you have?</i>	When we act as your investment adviser, we are required by law to put your best interests ahead of our own. This is called our “fiduciary duty.” At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. For example, the more accounts we manage, the more fees we earn.
<i>How do your financial professionals make money?</i>	Our financial professionals receive fees for the investment advisory services they provide. These fees are ongoing and based on a percentage of assets in your account. As noted above, our financial professionals have an incentive to have more assets in your account if they are paid an asset-based fee.
