Conversation Starters. Ask your financial professional:

- Given my financial situation, should I choose an investment advisory service? Should I choose a brokerage service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

Transaction-Based Fees: We do not charge commissions for executing buy and sell orders.

Other Fees and Costs: We do not charge custodial fees however, we do charge account inactivity fees on a quarterly basis. We charge fees associated with specific activity in your account, such as wire transfer fees, ACH fees, and fees for outgoing transfers and other regulatory trading fees outlined in our Fee Schedule. Please see: vest.investments

Additional Information. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For additional information on our fees, please visit the Fees page of our website.

You will be charged an annualized fee of up to 1.25% for Advisory Services. Annual fees are not charged in advance. Fees are charged monthly, calculated daily and deducted on a monthly basis.

The monthly fee is based upon the market value of all assets held within the Client's Investment Account on the last business day of the calendar month. The Advisory Services commence on the date on which the advisory agreement is signed by us and the Investment Account is funded. For the first calendar month, fees will be adjusted pro rata based on the number of calendar days for which the advisory agreement was effective. Any contributions and/or withdrawals made during a calendar month may result in an adjustment to the advisory fee. The Client may be charged a pro rata fee in the event the Client's service is terminated on a day other than the last business day of the calendar month. In that event, the pro rata fee will be due and payable upon termination of the service.

In addition to the advisory fees charged you may be charged other fees that include brokerage commissions, transaction fees, sales loads, sales charges, management fees, administrative fees, account maintenance fees, transfer taxes, wire transfer fees, electronic fund fees, and other fees may be charged by the broker or dealer selected for execution of the securities transactions in the Investment Accounts, by the custodian, and/or by the distributor, issuer or fund issuing the securities purchased and sold within the Investment Accounts. You will be solely responsible for paying all such charges. In addition, certain exchange-traded funds ("ETFs") pay management fees to their investment advisers, which reduce their respective assets. To the extent that the portfolio has investments in ETFs, you may pay two levels of advisory fees for the management of their assets: one directly to the Firm, and the other indirectly to the managers of those ETFs held in their portfolios.

Additional Information. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Additional information about our fees is available in Item 5 of our Brochure, available at our website at vest.investments or at <https://adviserinfo.sec.gov>.

Conversation Starter. Ask your financial professional:

- Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when providing recommendations as my broker-dealer or when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

**Northbound Securities LLC.
(Broker Dealer)**

We **do not** provide recommendations as your broker-dealer. The way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the services, we provide you. Here are some examples to help you understand what this means

Conflicts of Interest: In some instances, the more transactions in securities priced under \$5 in your account, the more fees we charge you. However, those fees are charged by our clearing firms and are passed through to you, without us making any profits. We therefore do not have an incentive to encourage you to engage in those transactions. However, we will share in revenue on securities lending, cash balances, payments for order flow and other ancillary fees generated by our clearing firm. This may present an incentive for us to encourage this type of activity.

Proprietary Products: We do not sell investments that are issued, sponsored, or managed by us or our affiliates.

Third-Party Payments: We do not receive compensation from third-parties to promote, offer or sell any specific securities or investments. Our financial professionals do not receive more money if you buy certain investments.

Revenue Sharing: Our clearing firm shares with us interest revenues on the cash balance in your account, and the payments they receive from trade

**VestWealth, Inc.
(Investment Advisor)**

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice, we provide you. Here are some examples to help you understand what this means.

Conflicts of Interest: An asset-based fee presents a conflict of interest because the more assets you have in your advisory account, the more you will pay in fees; therefore, we may have an incentive to encourage you to increase the assets in your account. Northbound Securities will affect trades for VestWealth and is an affiliate of VestWealth. Since VestWealth Clients must use Northbound Securities, there is an inherent conflict of interest involving common ownership, as both are owned by the Parent. Although VestWealth is not directly compensated as a result of a Client's engagement with Northbound Securities, VestWealth will indirectly benefit due to their common ownership. The more commercially successful Northbound Securities is, the better it is for VestWealth. Notwithstanding this conflict, VestWealth believes that this arrangement with Northbound Securities does not interfere with its provision of Advisory Services.

Proprietary Products: We do not recommend investments that are issued, sponsored, or managed by us or our affiliates.

<p>execution venues when they send your orders to these venues for execution.</p> <p><i>Principal Trading:</i> We do not buy investments from you, and sell investments to you, from our own accounts (called “acting as principal”), so we have no incentive to encourage you to trade with us.</p> <p><i>Fractional Shares:</i> We facilitate transactions in fractional shares that are less than one full share. We have an incentive to encourage you to buy these shares as they are not transferable and therefore encourage you to remain as a client.</p>	<p><i>Third-Party Payments:</i> We do not receive compensation from third-parties to promote, offer or sell any specific securities or investments.
