Matty AI, Inc. is registered with the Securities and Exchange Commission as an investment adviser and, as such, we provide advisory services rather than brokerage services. Brokerage and investment advisory services and fees differ and it is important for you, our client, to understand the differences. Additionally, free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing. This document is a summary of the services and fees we offer to "retail" investors, which are natural persons who seek or receive services primarily for personal, family, or household purposes.

What investment services and advice can you provide me?

We offer the following investment advisory services to retail investors exclusively online through our proprietary app: **Portfolio Management Services**. Detailed information regarding our services, fees and other disclosures can be found in our Form ADV Part 2A Items 4, 7, and 8 by clicking this link <https://adviserinfo.sec.gov/firm/brochure/317016>.

Account Monitoring: We do not monitor your account or investments.

Investment Authority: Investment accounts are managed exclusively through our online app on a **discretionary** basis whereby decisions related to the investments to buy or sell for your account will be based on the information you provided regarding your financial condition, risk tolerance, investment objectives and other factors..

Investment Offerings: We offer advice on equity securities, including ETFs.

Account Minimums and Requirements: In general, we do not require a minimum dollar amount to open and maintain an advisory account; however, we have the right to terminate your account if it falls below a minimum size which, in our sole opinion, is too small to manage effectively.

Advisory Fees - We are compensated by the receipt of service fee of 3% of all funds added to the Matty Account. This fee is charged only when funds are deposited. We do not charge recurring fees on your assets under our management,

You may also incur additional fees and costs such as:

- Custodian fees;
- Account maintenance fees;
- Fees related to mutual funds and exchange-traded funds;
- Transaction charges when purchasing or selling securities; and
- Other product-level fees associated with your investments

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Key Questions to Ask Your Financial Professional

- **Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

Our fees are based on your continued use of our services and the quality of the recommendation we make. Conflicts exist from our need to generate revenue through your continuous depositing of additional funds to your account that could result in providing more frequent rebalances and financial studies than you would otherwise require in order to retain your interest and engagement with our online investment management services.

Refer to our Form ADV Part 2A by clicking this link <https://adviserinfo.sec.gov/firm/brochure/317016> to help you understand what conflicts exist.
