Relationships and Services

What Investment Services and Advice Can You Provide Me?

We offer investment advisory services to retail investors.

Asset Management Services: When providing these services on a non-discretionary basis, you make the ultimate decision regarding the purchase or sale of investments. We may provide such services through our wrap fee program.

Financial Planning and Consulting Services: We will provide you with a detailed financial plan designed to achieve your stated financial goals and objectives.

You may place reasonable restrictions on the types of investments that may be purchased or sold in your account so long as the restrictions are explicitly set forth.

Our advice and recommendations are limited to the following types of investments: stocks, bonds, mutual funds, ETFs, REITs, and Options.

We do not have a minimum account size for our asset management services.

For additional information, please see Items 4 and 7 of Part 2A.

- How will you choose investments to recommend to me?

Fees, Costs, Conflicts, and Standard of Conduct

What Fees Will I Pay?

For asset management services, you will pay an annual fee based on the total assets under management. The fee is payable quarterly in arrears. For financial planning services, you will pay a fixed fee. Our fixed fee is payable in arrears upon completion of services.

We charge an asset-based fee, which means that the more assets there are in the client's advisory account, the more the client will pay in fees. As such, we may, therefore, have an incentive to encourage our clients to increase the assets in his or her accounts. You may pay additional fees, including custodian fees, fees related to mutual funds, and other transactional fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce the amount of money you make on your investments over time. Please make sure you understand the fees and costs you are paying. For additional information regarding our fees and costs, please see Item 5 of Form ADV.

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What Are Your Legal Obligations To Me When Acting As My Investment Adviser? How Else Does Your Firm Make Money, And What Conflicts Of Interest Do You Have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

Our asset management fee structure gives us the incentive to encourage clients to increase the assets in his or her accounts. Our firm's financial professionals include licensed insurance agents. In these capacities, our financial professionals may sell insurance products for a commission. They have an incentive to recommend these products to you in order to increase their compensation.

For additional information, please see Items 5 and 10 of Part 2A

How Do Your Financial Professionals Make Money?

Our financial professionals are paid cash compensation as salary or bonuses based on their experience and roles at the firm. They are compensated based on the amount of client assets they service or revenue we earn from the financial professional's advisory services.

How might your conflicts of interest affect me, and how will you address them?
