Item 2: Relationship and Services

What investment services and advice can you provide me?

We offer investment advisory services to retail investors. Our services include investment management and financial planning.

Monitoring:

Under our investment management services, your investment accounts will be monitored and reviewed regularly on at least a quarterly basis by our firm. We will provide advice to you regarding the investments and allocation of your accounts to ensure they are positioned appropriately based on your goals and objectives.

Investment Authority:

Through our Investment Management service, we act only on a **non-discretionary basis**. This means that you make the ultimate decision regarding the purchase or sale of investments that we recommend and that we are required to get your approval prior to placing trades in your account(s).

Limited Investment Offerings:

We do not make available or offer advice with respect to proprietary products nor to a strictly limited menu of products or types of investments.

Account Minimums and other Requirements:

There is no account size requirement for retail investors to open or maintain an account under our management.

For additional information, please review Item 4, 7, and 13 of our Form ADV Part 2A.

Ask your Adviser:

- **Given my financial situation, should I choose an investment advisory service? Why or why not?**
- **How will you choose investments to recommend to me?**
- **What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?**

Item 3: Fees, Costs, Conflicts, and Standard of Conduct

What fees will I pay?

The amount of fees you pay to our firm and the frequency in which you are billed depends on the services being provided. For investment management service, we charge a fee based on a percentage of assets under management in the amount of 1.00%. Fees are charged quarterly in advance.

We are paid for investment management services based on a percentage of your managed account value. Therefore, the more assets there are in your advisory account, the more you will pay in fees, and we therefore have an incentive to encourage you to increase the assets in your account.

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which you may incur. Additional fees you may pay include certain charges imposed by custodians such as custodial fees, deferred sales charges, or other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For additional information, please review Item 5 of our Form ADV Part 2A.

Ask your Adviser: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means. For example, some of our financial professionals may have outside business activities that we may recommend you use. These professionals will receive compensation based on those services. Clients are never obligated to use any third-party provider we recommend.

Ask your Adviser: How might your conflicts of interest affect me, and how will you address them?

How do your financial professionals make money?

Our financial professionals are compensated on a percentage of revenue generated by clients serviced by the professional with a discretionary bonus (based on firm metrics). Some may also be paid an hourly wage for administrative duties. This may create a potential conflict of interest in that it may create an incentive for professionals to encourage you to increase your investment account size. Neither our firm nor any of our professionals receive commissions.

Item 4: Disciplinary History

Do you or your financial professionals have legal or disciplinary history?

No. You can visit Investor.gov/CRS for a free and simple search tool to research us and our financial professionals.

Ask your Adviser: As a financial professional, do you have any disciplinary history? For what type of conduct?
